ACKNOWLEDGMENTS

This report would not have been possible without the data and expert knowledge generously provided by individuals and organizations involved in Weed Management Areas across the state. We thank the numerous contributors who participated in mapping meetings, provided datasets and reviewed the results. In particular, we thank Jim Belsher-Howe (Plumas National Forest), Joanna Clines (Sierra National Forest), Joe DiTomaso (UC Davis), Athena Demetry (Sequoia-Kings Canyon National Park), Dean Kelch (California Department of Food and Agriculture), LeeAnne Mila (El Dorado County Agricultural Commissioner's Office), Scott Oneto (University of California Cooperative Extension), Steve Schoenig (California Department of Fish and Game) and Wendy West (University of California Cooperative Extension). Funding was provided by the California Department of Food and Agriculture (American Recovery and Reinvestment Act funds), National Fish and Wildlife Foundation Pulling Together Initiative, Resources Legacy Fund, Richard and Rhoda Goldman Fund, True North Foundation, USDA Forest Service State and Private Forestry Program and USDA Forest Service Special Technology Development Program.

In accordance with federal law and U.S. Department of Agriculture policy, the California Invasive Plant Council does not discriminate on the basis of race, color, national origin, sex, age or disability.

RECOMMENDED CITATION
