NEVADA

*For Nevada Weed Free Forage Producers, see here: http://agri.nv.gov/Plant/Noxious_Weeds/NV_Certified_Weed_Free_Producer_Links/

For more information about weed free certification go to:

<http://www.cal-ipc.org/ip/prevention/weedfreeforage.php>

1. If you need a large amount of material for the coming year, contact vendors early in the growing season to make sure sufficient weed free forage /straw will be certified and available for your project needs.
2. Ask your vendor for a proof of certification, in the form of a copy of CDFA Form 66-079 "Certificate of Quarantine Compliance (CQC)" associated with the inspection of the specific forage/straw materials. This is the legal document verifying that the materials have been inspected and certified.
3. Many vendors can order these materials upon request.
4. For upland restoration or mulching projects, certified weed free rice straw is considered the most weed free option.
