

2022 Statewide WMA Meeting

Doug Johnson, Executive Director
California Invasive Plant Council

A person wearing a red helmet, white shirt, orange pants, and gloves is using a yellow and black brush cutter to clear dry grass in a field. The background shows a dry, hilly landscape with some trees and a clear blue sky.

Summertime whip work just got a whole lot easier with electrical equipment! - Haley Sutton, Save Mount Diablo

Agenda

1. CDFA Program Updates
2. Case Study: Tracking Progress on EDRR Targets in the SF Bay Area
3. WMA Updates

WMA's unique role

- Share observations
- Coordinate across jurisdictions
- Take a landscape-level approach

Key for durable conservation goals of 30x30

Bridget Parrino hikes across steep canyons hunting for pesky fennel on Santa Cruz Island. - Jay Woolsey, California Institute for Environmental Studies
